REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The newly added claims 46-50 are allowable over the prior art for similar reasons that the previously allowed claims 1-45 were allowed. The previously allowed claims were allowed because of the claimed "frequency distribution table" and its related function. Claim 46 is now allowable because it requires a "control means that controls the selector to select one of the greatest distance or the least distance for displaying on the distance display when plurality distances are found by the computer." This function is a result of utilizing the previously mentioned "frequency distribution table" and is therefore not taught in the Bamberger reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
